## SUMMARY

As a seasoned software engineer, I bring a wealth of experience in the world of software development. Throughout my career, I've honed my skills in designing and building robust software solutions, spanning various domains and technologies.

My dedication to the field is evident through a track record of successfully delivering complex projects while collaborating effectively within diverse teams. My commitment to personal and professional growth drives me to continually enhance my skill set.

I am passionate about tackling challenging problems and contributing to high-profile organizational initiatives. With a strong foundation in software engineering, I am well-equipped to take on a variety of projects and provide valuable technical expertise.

## PROFESSIONAL EXPERIENCE

2020

Erbil, IQ

### Summer Internship

#### Dwrandaz

- During my summer internship at Dwerandaz Company, I collaborated with fellow interns to create innovative service-oriented mobile applications, contributing to the development of user-friendly and impactful apps.

2021

Erbil, IQ

### Head Of IT

#### Rawiar Real Estate Co

- I held the position of Head of IT at a company where I spearheaded solutions for accounting and data-related challenges.
- I orchestrated the selection of ideal hardware components, guaranteeing smooth operations across multiple company branches and establishing a dependable and efficient IT infrastructure.

11/2021 - 09/2023

Erbil, IQ

### Software Developer

#### UMG Group co.

- successfully developed five mobile applications from the ground up, catering to both Android and iOS platforms, showcasing my proficiency in full-stack mobile app development.
- successfully deployed three applications to the App Store and four applications to the Google Play Store, demonstrating my expertise in the end-to-end mobile app development and deployment process for both major platforms.
- implemented CI/CD pipelines for the Google Play Store and Apple App Store, automating the deployment process and ensuring faster, error-free releases of mobile applications.
- I collaborated closely with backend developers, contributing to the planning, management, and coding of backend solutions, fostering effective teamwork in delivering robust software systems.

## EDUCATION

2010 - 2016

Erbil, IQ

### High School

#### Rizgari High School

2017 - 2021

Erbil, IQ

### Bachelor's Degree in Software Engineering

#### Salahaddin University - college of engineering

## ACHIEVEMENTS

### Developed a 10 Mobile apps

I have independently developed 10 mobile apps entirely on my own, demonstrating my self-reliance and capability in the full lifecycle of mobile app development.

### Revamped and Completed Half-Finished Mobile App

I took over a mobile application project that was halfway through development, addressed existing bugs, enhanced stability, introduced numerous features, and successfully brought the project to completion, showcasing my problem-solving and project management skills.

### Backend API Development

I have practical experience in creating APIs, facilitating efficient data exchange and integration within applications.

### Project Owner and Team Coordinator

I served as a project owner, overseeing task assignment, developer coordination, and collaboration on planning, ideas, task management, and testing within the team.

## SKILLS

### Tools

Laravel

Flutter

Dart

Swift

mySQL

Js . Html . Css

### Operating Systems

Mac

Windows
