Highly motivated and skilled Software Engineer with 1 year of experience in developing Flutter applications. Demonstrated expertise in creating and maintaining e-commerce applications for both Android and iOS platforms. Seeking challenging opportunities to contribute to innovative projects and leverage my technical skills to deliver high-quality software solutions.

WORK EXPERIENCE

DevSpace

(May 15, 2022 - Present)

Flutter Developer

as a Flutter developer at devSpace, I work on several projects Like (Royal Pet iq) which is an e-commerce application for pets containing several big features such as deep linking w memory optimization. Using Firebase authentication, notification. And publishing to the app store, play store, and gallery app.

and work on webview applications for shipping which have some amazing features like chatting with the support team and using provider as state management.
