About Me

Highly skilled and motivated Mobile Application Developer and Software Engineer with 2 years of experience in developing innovative and user-centric mobile applications. Seeking challenging opportunities to leverage my technical expertise, creativity, and passion for software development to contribute to cutting-edge projects and drive business growth.

Education

2022-2023

Tishk International University

GPA: 3.20+

Strong foundation in software development, network architecture, and hardware design. Hands-on experience in applying theoretical knowledge to practical projects. Detail-oriented, analytical, and adept at problem-solving. Ready to leverage technical skills and contribute to cutting-edge advancements in the field of computer engineering.

Projects

Technovironment

Technovironment is an innovative application that uses AI and image recognition to address environmental issues.

Internships

Erbil International Airport.

Intern at Erbil International Airport gained experience in managing networks, servers, and telephone lines.
