# Khalik Tedzhoev

RPA Analyst – Техносерв  
Moscow Metropolitan Area

## Summary

Micro Focus LoadRunner, UFT One, ReadyAPI, TestComplete, Linux, Bash, PowerShell, AWS, RPA, Java

## Experience

Техносерв  
RPA Analyst  
May 2020 - Present (1 year)  
Москва, Россия

Micro Focus LoadRunner, UiPath

### TV Station

Java / Android Developer and RPA Developer  
May 2016 - May 2020 (4 years 1 month)  
Belgium

I have made automation of some routine tasks (using UiPath, WinAutomation), like preparing, rendering, collecting data from the Internet etc, for various programs on TV. I have wrote parsers (jsoup, wordpress wrappers for java and ffmpeg wrappers for java) to automate update a website. I have configured and maintained live stream on CentOS (nginx). Also I like Flutter and Dart. On my github account there are some examples (<https://github.com/rizgan/>). Using deeplearning4j, H2O Driverless AI and RapidMiner I have predicted visitors to a website according the title of a news.

### RojTV

3D Graphic Designer  
October 2006 - April 2016 (9 years 7 months)  
Belgium

Programs I used for creating 3D graphics was Alias Maya, for composing Shake, Digital Fusion, Adobe AfterEffects.

### PalDesign Group

Graphic Design Specialist  
March 1998 - September 2006 (8 years 7 months)

Moscow, Russia

I worked as a designer using these programs: Adobe Photoshop, Illustrator, InDesign, QuarkXPress, FlighCheck, FreeHand. Made more that 2000 logotypes, product labels, design of covers, magazines, newspapaers, books etc.

---
