Date of Birth: March 1, 1985

Personal Summary

I am a dedicated Cybersecurity student passionate about protecting digital assets and mitigating cyber threats. Throughout my studies, I have developed strong skills in network analysis, security event management, and penetration testing using advanced tools such as Wireshark, Nessus, Nmap, Metasploit, and SQLMap. Additionally, I have gained practical experience on the TryHackMe platform where I completed various challenges and tasks in cybersecurity.

Practical Experience

TryHackMe Platform

- Completed various challenges covering topics such as vulnerability exploitation, network analysis, and ethical hacking.
- Gained hands-on experience with security tools and data analysis through simulated real-world scenarios.
- Developed problem-solving and system analysis skills with a focus on enhancing security and mitigating threats.

Skills

- Network analysis using Wireshark and Nmap
- Penetration testing using Metasploit and SQLMap
- Security event management using SIEM
- Security enhancement and network design using advanced security practices

Certifications and Courses

- Coursera - Cybersikkerhet (2023)
- TCM Security - Practical Ethical Hacking (2022)
- FreeCodeCamp.org - Scientific Computing with Python (2022)
- AWS Certified Cloud Practitioner - Security Incident Response Overview (2023)

Languages

- Bokmål: Written - Very Good, Spoken - Very Good

- Swedish: Written - Good, Spoken - Good

- English: Written - Very Good, Spoken - Very Good

Education

Noroff - School of Technology and Digital Media

- Bachelor of Cyber Security (2021 - 2024)

- Completed coursework in Professional Aspects of Computing, Network Security, Programming and Databases, Information Security Management, Criminality and Warfare in the Digital Domain, Computer Network Attack and its definitions, Incident Response, and Penetration Testing: Practice and Procedure.

Professional Experience

Elkjop | Kristiansand (August 2020 - Present)

- Operations Manager

- Provide operational support, handle returns, and offer after-sales solutions for mobile and PC products.

- Deliver customer support and troubleshooting services, interacting with approximately 30 customers daily.

Driving Licenses

- Class B - Car

- Class T - Tractor
