### DIGITAL SKILLS

SCALA / Flutter Dart / GIT (GitHub) / Agile (Scrum) / MySQL / Unit Testing / C++ / Java / Design Patterns, SOLID design

## PROJECTS

### ● Pharma Time application

<https://play.google.com/store/apps/details?id=com.timeengcom.timepharmacy>

This program allows users to access all the information of Syrian and imported medicines without the need to connect to the Internet, with pictures of medicines, presentation of educational courses and comprehensive questions in the field of medicine.

### ● Graduation Project

An application that helps people to search for the nearest hospital using Google Maps and search for blood bags and oxygen cylinders, and the user can add himself as a donor.

The application also encrypts user data via QR Code and can print it in the form of a necklace

Mobile language used: Java

Backend language: php

Database used: MySql

Firebase notification service has been used

### ● Blood Bank application

<https://drive.google.com/file/d/14Q0HQo0afFwjfkTsArqd6Rg2mS7E31/view?usp=sharing>

This project allows the user to search for the appropriate blood group in the blood bank, and in the event that there is no presence, a notification is sent to all users that there is a case in need of blood transfusion, and an announcement is published within the application (has been used Firebase Notification to send notification to users)

## COMMUNICATION AND INTERPERSONAL SKILLS

### ● Fast Learner

### ● Ambitious

### ● Team Player

### ● Patient
