PROJECTS

Real Estate Web System To Contract

I'm currently work on this project, this system is used to make a contract between an owner and client to sell the earth or estate and so on...

- **react js with redux** store are used for frontend
- **node js and express with mysql** are used for backend
- **you can see some part of project with images I uploaded in github**
- github link ==> <https://github.com/mohamednazm-web/realEstateImage.git>

Food Delivery App

I create a complete Multi Restaurant food delivery system developed using Laravel and Flutter Framework. this app is Powerful admin panel and will control the business smartly but still this app is under working.

- for frontend (flutter)
- for backend (Laravel)
- the laravel is hosted on vps(ubuntu 20.04)
- **you can download the app for android in attached link ==>**
<https://www.mediafire.com/file/3gap9hfl35gw491/app-arm64-v8a-release.apk/file>
- admin dashboard link ==> <https://boss-man.net/admin>
- to login the admin dashboard you can use the below email and password
- email: mhamadnazm53@gmail.com
- password: *admin&*
