EXPERIENCE

TECH CLUB COORDINATOR, KUST; SULAYMANIYAH – NOVEMBER 2023 - FEBRUARY 2024

- As a tech club coordinator, I prepare events, publish challenges, and assist Computer Science/Engineering students.
- Assist both Computer Science and Engineering departments during departmental projects or needs.

WEB DEVELOPER INTERN, KUST; SULAYMANIYAH – JULY, 2022 - SEPTEMBER, 2022

- Worked with the Office of Student Affairs and Registration to redesign the office's website.
- Improved skills in communications by working closely with the office and IT department.
- Improved skills in web development using WordPress.

INTERN, ASIACELL COMMUNICATIONS; SULAYMANIYAH – AUGUST, 2021 - SEPTEMBER, 2021

- Learned about different departments available in Asiacell Communications.
- Improved both technical and soft skills during the internship period.

PROJECTS

CITY SERVICES MOBILE APPLICATION DESIGN (FIGMA)

- City services is a mobile application for residential complexes that people can use to pay their bills and see their payment history.
- Improved skills in color selection, user experience, and prototyping in Figma.

CRYPTO FOR DUMMIES (FIGMA)

- Crypto for Dummies is a mobile application design for people who are new to cryptocurrency world.
- Improved skills in design and Figma.

CHAT APPLICATION (DART, FLUTTER, FIREBASE SDK)

- Designed and developed a chat app using Flutter and Firebase.
- Used Firebase Authentication to authenticate users, Firebase Storage to store user data, and Firebase Storage to store user files.

MEALS APPLICATION (DART, FLUTTER, RIVERPOD)

- Developed a Flutter app using advanced widgets that displays a list of meals and their recipes, and allows users to filter meals based on their preferences.
- Implemented state management using Riverpod to manage complex states.
- Used both explicit and implicit animations to build a user-friendly application.

I CAN HELP (FIGMA, NEXTJS, JEST, FIREBASE, I18NEXT, GITHUB)

- Worked on a remote-based group project to design and develop a web application to help local people find their desired job.
- Focused on design, front-end development, and i18Next for language localization.
- Worked on Jest snapshot testing to maintain UI consistency across various components.
