SKILLS

- HTML
- CSS
- Bootstrap
- Javascript
- React js
- Php
- Github
- Git

PROFILE

I'm a frontend developer with a strong foundation in software engineering. I completed a frontend bootcamp, where I gained in-depth knowledge of JavaScript and react. Passionate about creating visually appealing and user-friendly websites, I specialize in translating design concepts into interactive and seamless code. Seeking opportunities to contribute my skills and grow as a frontend developer in a dynamic team.

PROJECTS

Budget Management

[code|demo](#)

This website is designed to help users manage their budget

- Technologies: Bootstrap,Php,MySQL

2in1Kurdistan

[code|demo](#)
