Black Ace Company, Sulaymaniyah, Iraq

Software Developer

During my five-month internship at Black Ace Company, I gained valuable experience as a software developer and designer. My primary focus was on developing mobile applications using Flutter/Dart, which were seamlessly integrated with APIs and Firebase. Additionally, I honed my skills in UX/UI design. I actively collaborated with cross-functional teams to gather requirements, devise effective solutions, and implement software features to ensure the delivery of high-quality applications and conducted testing and debugging processes.

Internship Projects:

- Mobile App for online Store application
- Mobile App for Oil/ Gas Price Calculator

Component are:

- Flutter/Dart
- Integrated with API and Firebase
- Android Studio
- UI/UX mobile application for Ac app
- UI/UX web app for construction

Component are:

- Adobe xd

University Project:

- Hospital Management system using (Java , Jsp, Jdbc and Spring MVC).
- PCR Barcode System using (PHP, JavaScript, HTML, CSS)

Graduating Project:

- E-commerce online Management System for web and mobile app using (API, Flutter/Dart ,Firebase, Android Studio, PHP MySQL Database, JavaScript and integrated with open cart)

Skills

• Programing Language:

- Dart
- PHP
- Java
- JavaScript
- C++
- MySQL
- HTML
- CSS

• Backend Integration:

- API
- Firebase

• Others:

- Developing Mobile Apps
- Developing Web Apps
- UX/UI
