## Summary Statement

Software engineer with bachelor's in software engineering and 2+ years' experience specializing in backend development, database design, and API development, and enjoys customizing all of the development environment. Interested in devising a better problem-solving method for challenging tasks, and learning new technologies and tools if the need arises.

## Work Experience

### **Backend Developer / Full-time**

Kernel LTD, Erbil, Kurdistan

*June 2022 – Present*

- Designing algorithms and flowcharts to create new software programs and systems.
- Troubleshooting, debugging, maintaining and improving existing software.
- Tested, coded, reviewed, and delivered software with 100% on-time rec.
- Observing user feedback to recommended improvements to existing software products
- Implemented RESTful API and admin dashboard using NodeJs and ReactJs for management system, websites, mobile applications

### **Full-Stack Developer / Full-time**

Lucid Source LTD, Erbil, Kurdistan

*May 2021 – May 2022*

- Built several dashboards and API for several websites and platform applications, and developed a custom management system throughout my time in the company.
- lead the team in modernizing the code base from ASP to NodeJs and lead fresh developers to improve their skills.
- Organizing and assigning tasks and making clean architecture.
- Implemented several API microservices in Node.js.
- Collaborating with management, departments and customers to identify end-user requirements and specifications

### **Full-Stack Developer / Part-time**

Technobase, Erbil, Kurdistan

*August 2021 – July 2022 5:00 PM To 10:00 PM*

- Implemented RESTful API server for application which is service application(pesha.krd).
- Compiling and assessing user feedback to improve software performance.
- Producing efficient and elegant code based on requirements.
- Implemented RESTful API and Dashboard using NodeJs and ReactJs for websites.
- Developed an easy-to-use dashboard using ReactJs for custom real estate management systems.

## Education

### **Bachelor of Engineering in Software Engineering**

University of Salahaddin College of Engineering, Erbil, Kurdistan.

*2018 – 2021*

## Skills

**Programming Languages:** JavaScript, MySQL Server, NoSQL.

**Services:** Firebase, Twilio.

**Technologies:** Node.js, React.js(Antdesign), Knex.js, Sequelize, Prisma, MongoDB, Mongoose,

**Tools:** VSCode, MySQL Workbench, MongoDB Compass, Github, Gitlab, Notion, Agile methodology, Postman, MS Office

- +2 years' experience in backend development
- Excellent knowledge in the software development life cycle.
- Strong problem-solving skills.
- Strong knowledge in Object-Relational Mapping frameworks and Query builder.
- I am well versed in using ReactJs with antdesign which is a component library

## Certifications

- Udemy - The complete javascript course 2022 from zero to expert
- Udemy - nodejs-the-complete-guide
- Udemy - Node.js, Express, MongoDB & More - The Complete Bootcamp 2021
- Udemy - Fundamentals of database engineering
- Udemy - SQL - the complete introduction to sql programming

## Projects

### **Web Application**

- E-commerce web and mobile application / Final year research.
- Dayk Application / API and admin dashboard development.
- Real Estate management system for miransafiny Co.
- Real Estate management system for MPC Co.
- Implemented RESTful API and admin dashboard for dar application
- Implemented RESTful API for Alaqarat which is a subscription platform for real estate companies.
- Implemented RESTful API for service application which is [pesha.krd](https://pesha.krd)
- Implemented RESTful API and admin dashboard for diwan lounge application
- Implemented RESTful API and admin dashboard as a full stack for car shop management system.

### **Websites**

- HITEX website [hitex.tech](https://hitex.tech) / Backend developer
- Lalav website [lalav.com](https://lalav.com) / Backend developer
- Dasfood website [dasfood.com](https://dasfood.com) / Backend Developer.
- Hillstone website [hillstone.com](https://hillstone.com) / Backend Developer
- MCT website [mctiraq.com](https://mctiraq.com) / Backend Developer
- Kavin group website [kavin-group.com](https://kavin-group.com) / Backend Developer
- Avi health website [avihealth.org](https://avihealth.org) / Backend Developer
- Lumark website [lumark-agency](https://lumark-agency) / Backend Developer
- Blueprint website [blueprint-campus.com](https://blueprint-campus.com) / Backend Developer
- Miransafiny website [miransafiny.com](https://miransafiny.com) / Backend Developer
