Professional Experience

Intern, *Asiacell*

2021 | Sulaymaniya

I took an internship in asiacell where I learned alot about what the employees do as their daily tasks and they taught us a little about how they operate

student, *rwanga*

I participated in a mobile application development bootcamp where I got an intensive training and got to work in teams and I learned dart ,flutter and version control software git

Projects

xera bom bona

01/2023 – present

This application allows users to order food or anything their hearts desires from all around their city and the shop will receive the order in a different application that i made for them after they accept the order it will show up on the driver application that i made

Second hand, *mobile application*

it is a mobile application that allows the user to post and sell or buy item from other people and directly talk to them through the application

shamali-kurdistan, *mobile applicatin*

I made this application based on a client's request it is an application where you can see their products and put in requests to buy them and for the admin to answer the requests

sulifuel

10/2022 – 02/2023

it is an application that i made based on clients request that is for laboratories of fuel stations they use it figure out the best and cheapest fuel
