Hawler

Objective

As a Flutter developer, my goal is to create exceptional user experiences that meet the needs and expectations of the target audience. With my expertise in mobile app development and proficiency in Flutter framework, I aim to develop intuitive and visually appealing interfaces that optimize usability and engagement. I am dedicated to understanding the user's perspective through research and testing, and collaborating with cross-functional teams to ensure a seamless user experience across all platforms.

Education

Akre Technical Institution

2019-2020

Information Technology

Experience

Khwenari Kara Organization

1-6-2021 - 1-1-2022

Graphic Designer

My role in this organization as a graphic designer was to design beautiful and eye-catching content for their social media platforms.

Mana Factory For Bricks

1-10-2022 - 15-6-2023

IT Technician

In this company as an IT technician I was responsible for installing, maintaining and repairing hardware & software components of the organization's computers.

Swift Tech Company

1-6-2023 - Present

Flutter Developer

My role in this company as a Flutter Developer is to build and maintain mobile applications requested by the client with nice and beautiful UX/UI.

Projects

Sarbasti School Mobile App

One of my recent projects at Swift Tech Company is a mobile application that enables parents and students to stay connected with the school, access the school's calendar, view their grades, and communicate with teachers. The app also includes a news feed, events calendar, and a library of resources for students and parents.

Technology used in the project :

- Flutter + Dart
- Laravel
- MySQL

Docare - We Do Care

I have been working on this project of mine which was a platform for both Android and iOS built with Flutter Framework, the purpose of the platform was to bring doctors and patient close in one place where patients could easily find doctors and make an appointment with them.

Wasta Paltform - For home services

Another project of mine which was a platform for users to find all types of home services in single place and they can make an appointment with the service provider. The platform is build with flutter.
