WORK EXPERIENCE

Freelancer, Istanbul — Full Stack Web Developer

FEB 2021 - PRESENT

- Developed app integration with REST APIs for Google Maps, social media logins, payment processors, and other services.
- *Worked with Express or similar back-end Node.js web application frameworks.*
- *Planned and implemented NoSQL and SQL databases and developed API to communicate with the database.*
- *Searched for suitable hosting and VPS then deployed projects in addition to configure the server with domains and subdomains.*
- *Researched HTTP standards, API best practices, REST, web security, authentication, and implemented the best solutions.*

Tombul Gorıl, Istanbul — Front End Web Developer

SEPT 2020 - JAN 2021

- Managed full-cycle design tasks, handling all stages from conception to completion while maintaining guidelines throughout.
- *Created unique spaces for marketing ads within landing pages, providing visitor conversion rates of 15%.*
- *Developed user-oriented visuals and features using front-end languages, including HTML, CSS, and JavaScript, to increase site traffic to 25 visitors per week.*
- *Tested site compatibility across multiple browsers and devices, uncovering and debugging issues and addressing inconsistencies.*
- *Worked in an Agile-driven environment to effectively maintain project timelines and utilize available resources.*
- *Searched for suitable hosting and VPS then deployed projects in addition to configure the server with domains and subdomains.*

Freelancer, Latakia — *Front End Web Developer*

AUG 2017 - OCT 2019

- Completed full redesigns of existing websites to improve navigation, enhance visuals, and strengthen search engine rankings.
- *Planned and engineered RESTful web services to manipulate dynamic datasets.*
- *Used programming capabilities in PHP, SQL, JavaScript, and other libraries as needed.*
- *Created site layout and user interface using HTML and CSS practices.*
- *Researched new technologies, software packages, and hardware products for use in website projects.*
