Deploying surveys by teachers to collects information about courses from students.

Automatic Translation

[09/2017 – 07/2018]

An android app for Translation that takes a picture and extracts text from the image with OCR technology.

LSTM neural network does the Translation and then putting them back into the image.

Online Shopping Website

[03/2018 – 06/2018]

Building a small website for online shopping according to Systems Development Life Cycle (SDLC) including Planning, Analysis, Design, and Implementation.

Information Security Project

[10/2017 – 12/2017]

Coding for AES, DES, RC4 Algorithms.

Ethan Escape Game

[02/2017 – 06/2017]

3D Game was built with Unity and Blender.

https://drive.google.com/file/d/1KO3782FbRK-qQr4subxgcJeJ9hVFcpeA/view

Video Search Using Image Query

[10/2016 – 12/2016]

We search a huge video database using an image to retrieve the video related to it. We segmented the video into frames then, we kept key frames in our database to compare it against the images used to search for stored videos, so that a video is indexed by several key frames.

CERTIFICATIONS

Certifications

Al Bassel Certificate for the Best Graduate by Tishreen University, IT Faculty, Ministry of Higher Education in (2015 - 2016).
