Professional Experience

Intern, *Asiacell*
2021 | Sulaymaniya
I took an internship in asiacell where I learned alot about what the employees do as their daily tasks and they taught us a little about how they operate

interpreter, *clear source translation*
12/2022 – 04/2023
I was an Interpreter for the UK government and I received calls from different parts of the government

student, *rwanga*
I participated in a mobile application development bootcamp where I got an intensive training and got to work in teams and I learned dart ,flutter and version control software git

released applications

xera bom bena
01/2023 – present
This application allows users to order food or anything their hearts desires from all around their city and currently it has over 700 users and growing each day

xera bom bena shops
this application is for the shops that work with us they can add delete edit items of their shops

xera driver
this application is for our drivers to accept pick up and deliver the items from the shops to the clients

Second hand, *mobile application*
it is a mobile application that allows the user to post and sell or buy item from other people and directly talk to them through the application

shamali-kurdistan, *mobile applicatin*
I made this application based on a client's request it is an application where you can see their products and put in requests to buy them and for the admin to answer the requests
