EDUCATION

Foundation Program

Asia Pacific University of Technology & Innovation

2019 - 2020

BSc (Hons) in Software Engineering

Asia Pacific University of Technology & Innovation

2020 - 2024

TECHNICAL SKILLS

- **Programming Languages:** Dart
- **Frameworks:** Flutter
- **State Management:** Bloc
- **Development Tools:** Visual Studio Code
- **Version Control:** Git
- **Project Management:** JIRA
- **UI/UX:** Figma

SOFT SKILLS

- Problem Solving
- Creativity
- Multi-tasking and Time Management
- Communication

PROFILE

I am a software engineering Fresh graduate with a passion for learning and a drive to increase my experience and skills. I am a fast learner and am always looking for new challenges to expand my knowledge. I have excellent communication skills and am comfortable working both independently and as part of a team. Additionally, I have experience in Flutter programming, allowing me to develop high-quality mobile applications efficiently and effectively.

WORK EXPERIENCE

Flutter Developer (Freelancer)   March-2023 to present

- Delivered two successful mobile applications, showcasing proficiency in Flutter and a commitment to high-quality solutions.
- Collaborated closely with clients, ensuring their requirements were met through efficient code structures and regular updates.
- Managed version control using Git and embraced Agile methodologies for effective project timelines.

Flutter Developer | DietHub | Egypt   December-2022 to March-2023

- Developed a cross-platform mobile application using Flutter for DietHub.
- Implemented the MVVM file structure for efficient bug identification and utilized Bloc State management for separating business logic from the user interface.
- Managed version control using Git and embraced Agile methodologies for effective project timelines.

PROJECTS

Tour Guide Application

- Developed a tour guide application as the graduation project, offering personalized and interactive experiences.
- User features: authentication, email verification, password reset, QR code scanning, favorites, search, venues galleries, call emergency, and Google Maps integration.
- Admin panel capabilities: user management, Adding venues, updating venues info, deleting venues, and updating venphotos.
- Recognized as one of the university's top projects, showcasing software engineering excellence and user-centric design principles.

Events Application

- Developed Android Flutter application with integrated admin panel.
- User features: authentication, email verification, password reset, push notifications, event booking, liking events, event search, pre-event galleries, and Google Maps integration.
- Admin panel capabilities: user management, event creation, updating event info, deleting events, and updating event photos.
- Technologies used: Flutter and Firebase.
