Noushin Bahaaldin Muhammad

I am an engineer of information technology. I have taught at various universities for seven years. I have also worked at information technology – related jobs while teaching. I am really enthusiastic in content – related as well as computer networks, analyzing, monitoring, designing databases, web design, web support and working with graphic software and programing. I have the ability to learn computer related field and participate in any team work in order accomplished in job.

PERSONAL

Gender	Female
Date of Birth	1987
Email	babakhani.it@gmail.com
Numbers	07502304853
Location	Erbil

EDUCATION

MSc
— Engineering Information Technology (Computer Networks)

Title of Post-Graduate Thesis
Adaptive Resource Discovery in Mobile Cloud Computing

BSc
— Information Technology Engineering

Title of BSc Thesis
Wireless Sensor Network(WSN)

Pre university
— Mathematical Science

Diploma
— Mathematics and Physics

CERTIFICATES

— MTCNA
— CCNA
— CBT
— International conference Itcc2015
— New methods of teaching

WORK EXPERIENCE

Computer Network Engineer

School

        Laboratory Networking

        Setting Wireless Modem, Mikrotik Router

Software Engineer

Smart School

        Programing, Support site

        St- card design

IT Management & Engineering

IT Company

        Project Schedule

        Networking, Server Support

Karzan Mobile Application

Projects

        Design and develop iOS and Android application using Dart programming language and flutter framework

Skills

Programing

Superior development skills include OOD, Agile/Scrum Development, Solutions Architecture and Design patterns.

− Flutter/Dart - Cross Platform (iOS, Android) Mobile Development
− HTML/CSS
− JavaScript
− SQL Server

**Design**

− Adobe Photoshop
− Illustrator
− Adobe XD

ICDL

− Excel
− Word
− PowerPoint
− Access
− Microsoft Project

Teaching Experiences:

Taught in field Computer and Accounting

Taught courses:

Computer Graphics Lab, Computer Graphics, Operating System Lab, Computer Applications, Computer Basics, Operating System, Computer Network, Computer Network Lab

Taught in field IT

Students' Grade:

 BSc &Associate Degree

Taught in field Computer and IT and Network

Taught courses:

Strategic Management, Information Technology Engineering

Students' Grade:

BSc

Taught courses:

Software, IT application, Information management, E-commerce, Application of information technology in the organization, Linux lab, Message transfer management, Value Added Services, Workshop and measurement of wide area networks, operating system Lab, Workshop implement private networks (home), Virtual Machines

Students' Grade:

BSc & Associate Degree
