Kayes Alhomsi

Frontend Developer at Freelance, self-employed
Khartoum

Summary

Full-Stack web developer 65% front-end & 35% back-end.
Have Experience in:
*JavaScript
*HTML
*CSS
*React.js
*Firebase (Hosting & Functions API)
* C#
*Video Editing
*Photoshop

And here's one of my last works:
https://clone-eb626.web.app
Full stack Amazon-clone app. Done by React.js, has a complete
payment feature connected with Stripe.

Can work full/part time job, or freelancing projects as well.
Let's get in touch to see how can we co-operate together to grow
both of our businesses :)
