PROFILE

Experienced UX/UI designer with a background in graphic design, adept at collaborative teamwork, quick execution, and effective communication. Proficient in large-scale printing, designing banners, and templates, with a strong grasp of color theory. Demonstrated ability to work effectively in group settings and deliver high-quality results efficiently. Seeking the next role within the web/app or product design space to integrate my diverse background and enhance user experience by approaching projects from various perspectives.

EXPERIENCE

Hiking and camping website concept
March 22nd 2024

VentureVital is a website concept for a hiking and camping tools company that offers top-quality gear. The design is inspired by the 2024 trend of bento grids, reflecting functionality and organization in its layout.

Logistics Company website concept
March 11th 2024

Sewkan is an ongoing real project in development, a logistics company specializing in air, land, and sea shipments. The design is characterized by modern aesthetics, featuring consistent spacing and a monochromatic color scheme.
