Life Philosophy

"Life starts when you start going to school, and it ends the moment you stop learning."

About me

I've been using computers since I was 6, I fell in love with design at the age of 8 and have been doing it ever since. I love working with different people and learning more from them. I'd love to work with you even for a day, I'm sure I'll learn something from you. :)

My Passions
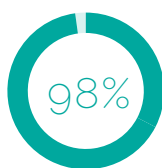

⚓ *Movies & TV Shows*

🎮 *Video Games*

⚽ *Soccer*

🚲 *Biking*

👨‍🍳 *Playing Music*
